# Where are we with the automatic reporting for municipalities?

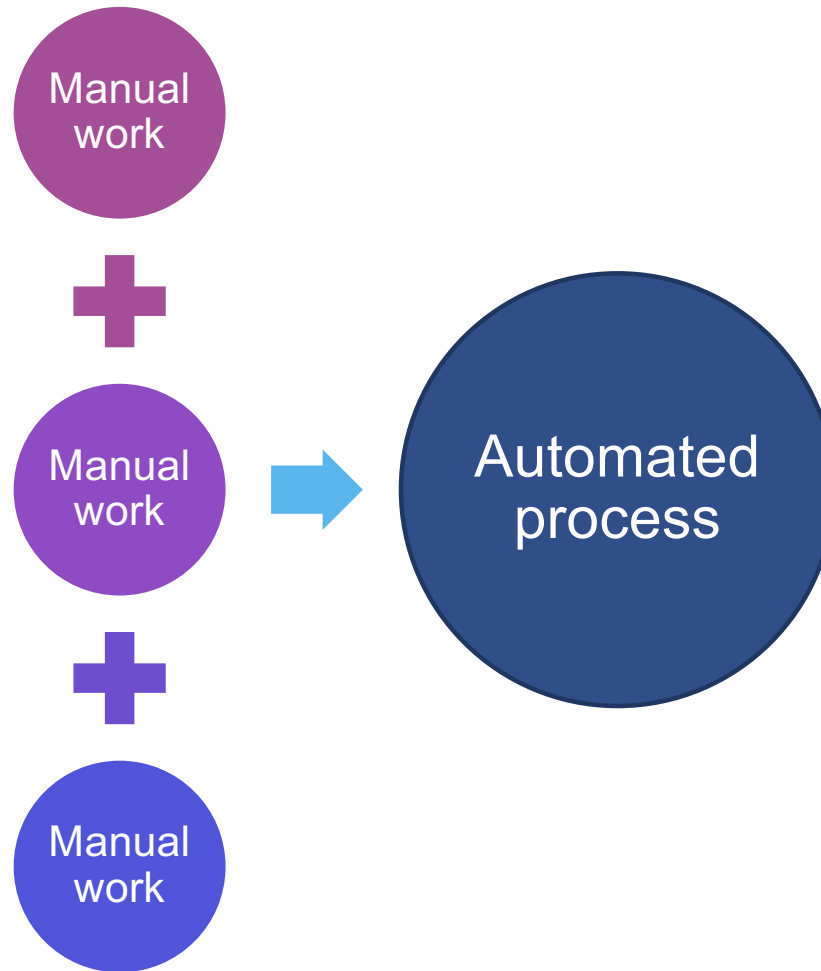

14.11.2019 Real-Time Economy conference

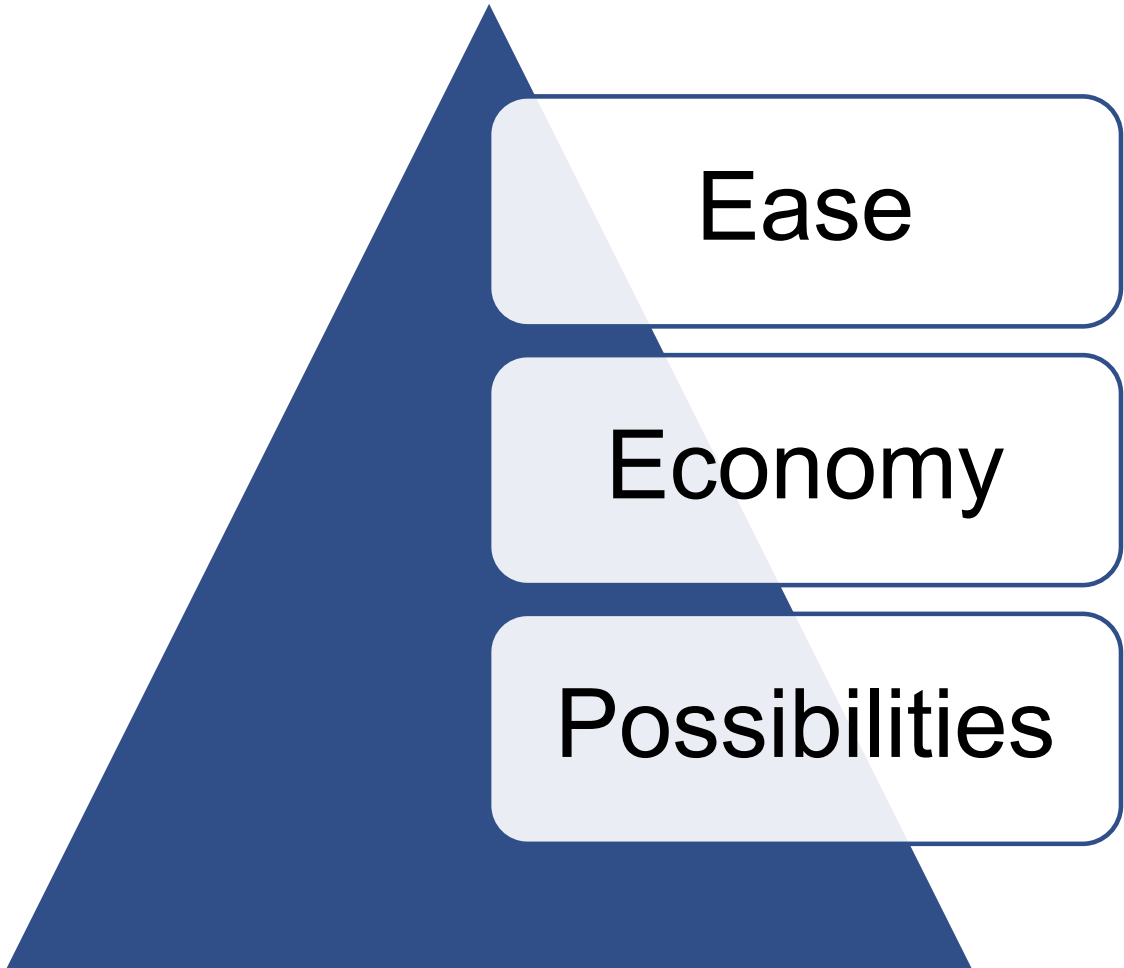

Senior Specialist Denis Galkin, Ministry of Finances

[Denis.galkin@vm.fi](mailto:Denis.galkin@vm.fi)

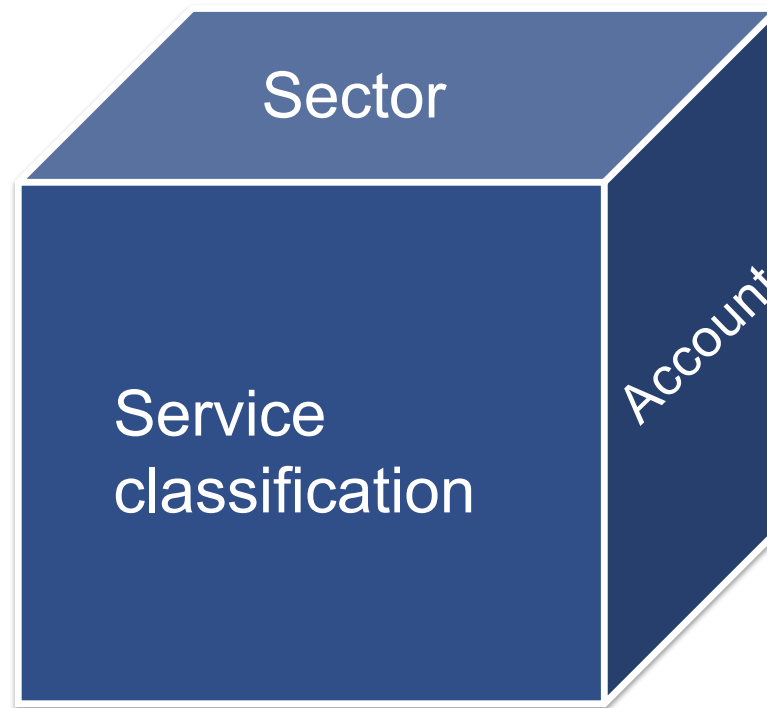

This reform is not about statistics!

## Our cube

- Account
- Service classification
- Sector

## Our XBRL-Datamodel

- We began developing our datamodel for a financial reporting for municipalities in 2012 and it was ready in 2015. However, it didn't meet our needs.

→ (° □ °) ∩ ———

## Our XBRL-Datamodel

- The development of the second version began in 2017. It was planned to include only accounts and service classification. We switched to a cube model.

→ (° □ °) ∩ ———

## Our XBRL-Datamodel

- Our cube model based datamodel was nearly ready in the beginning of spring 2019. However it included municipalities and also the intended counties and the planned regional government reform was cancelled.

→ (° □ °) ∩ ———

## Our XBRL-Datamodel

- At the moment we have a correct cube model based datamodel for municipalities.
- Ready untill the end of 2019.

→ ( ^ □ ^ )

## Whats our next step?

- We need to know how to maintain the datamodel.
- We need to separate the maintenance of gathered information from the upkeeping of a datamodel.
- We need to make sure, that authorities are able to maintenance the information they are responsible off.
